

rotateONE

technical data

Standard load capacity	120 kg
Maximum torque	Up to 45 Nm
Rotation speed	up to 90 /s °
Position accuracy	+/- 1 Arc Min
Electrical connection	230V 50Hz 16A CEE
Power consumption	Approx. 1kVA
Interface to the robot	EtherCAT / network cable
Power servo drive	750 W Rotary axis
Encoder system	Multiturn absolute
Gearbox	i=20
Options	Forming gas unit Counter bearing
